Introduction. Below is a tentative outline of the course structure and reading assignments. Naked page numbers refer to Jesse Dukeminier, Stanley M. Johanson, James Lindgren, & Robert H. Sitkoff, Wills, Trusts, and Estates (7th ed. 2005). The Uniform Probate Code (“UPC”), the Uniform Trust Code (“UTC”), and other Uniform Acts may be found in John H. Langbein & Lawrence W. Waggoner, Uniform Trust and Estate Statutes (2005-2006 ed.) (“L&W”). For assigned provisions from the UPC, UTC, and other Uniform Acts, you should read the statutory text and skim the official comment. The comment is often quite helpful. Additional supplementary materials will be posted on Blackboard from time to time.

First Class Assignment. For the first class, which will open with the Shapira case at page 21 of the DJLS text, please read the material corresponding to Sections I.A, B, and D below. Section I.C, which supplies important background and vocabulary, should be read sometime during the first week or so.
